AUDITING MARITIME SAFETY MANAGEMENT SYSTEMS TRAINING COURSE

INTLREG
INTERNATIONAL REGISTER OF SHIPPING

INTERNATIONAL REGISTER TRAINING INSTITUTE
A Department of International Register of Shipping)

YOU WILL LEARN

The objectives of the course are that upon completion successful delegates will be able to:

- Understand how and why the ISM Code is applied, other criteria and standards against which an audit could be performed.
- Identify the requirements of the ISM Code against which an audit is to be performed.
- Explain the similarities between the ISM Code and the ISO 9000 series and identify any areas where one complements the other.
- Describe the roles and responsibilities of Auditors and Lead Auditors.
- Explain the rationale supporting the implementation of the ISM Code and state the implementation timescales.
- Plan and prepare an audit to the requirements of the ISM Code with respect to the management of an organization and the operation of a ship.
- Distinguish between the process for the issue of a Document of Compliance (DOC) and the process for the issue of a Safety Management Certificate (SMC).

ISM TRAINING

The primary objective of our training course is to instruct Maritime Auditors in the principles and practices of auditing for conformance with the International Management Code for the Safe Operation of Ships and for Pollution Prevention.

What we offer

We offer a 2-day, 8 hour per day course, approved by The International Register of Certificated Auditors (IRCA).

WHO SHOULD ATTEND

Our training course is designed for:
